As Christians, we are on an exciting journey to become more like Christ.

As lay preachers, we have a responsibility to nurture a living relationship with the Lord that will shine through our preaching, by cultivating a love for the Word of God, married with having a humble and teachable spirit.

The SBLPA Personal Review Workbook is a tool to help facilitate personal and theological reflection on the lifestyle that sustains and enriches an effective preaching ministry.

How we live, learn, serve others, take time for family and friends, and for prayerful and diligent study of the Word, will shape, to a large extent, how we preach. Investing in the Personal Review Workbook will be a worthwhile investment of your time and will be of great spiritual benefit to you!
